What to expect...

The **Well-led** programme is a practical leadership development course for registered managers and other leaders working in adult social care.

Grounded in the reality of care delivery, the programme has been developed with experienced managers who understand the challenges of leading care teams. It is built around proven leadership models that can be applied directly to deliver change, drive improvement, and embed best practice.

Unlike formal qualifications, Well-led is highly interactive and collaborative. It connects learners with peers, encourages reflection, and provides practical tools to strengthen leadership capability.

By the end of the programme, participants will feel empowered, confident, and well-equipped to lead person-centred services with strong values and a culture of continuous improvement.

Learners will receive a **Connect2Care Certificate of Attendance** upon completion.

What will you learn?

The programme is delivered through four interactive modules, covering:

1	What "well-led" looks like in practice
2	Leadership strategies to transform services and improve quality
3	Building confidence and skills to lead in complex and challenging contexts
4	Setting personal goals to enhance leadership effectiveness
5	Collaborative learning, reflection and networking with peers

Course Details:

Duration: 4 days, delivered flexibly over a 4-month period

Assessment: Learners will receive a **Connect2Care Certificate of Attendance** provided all four modules are attended.
